# WELCOMING REMARKS

---

The year 2020 is certainly a challenging year for many people as a result of the COVID-19 pandemic. SCOPI stakeholders consist of farmers, private, and other parties along the supply chain. SCOPI's role as a convener is the key to supporting each other, strengthening each other. This is done by several SCOPI programs including DISKO.

The takeaways from the year 2020 for SCOPI is not small. Interestingly, the year 2020 has increasingly made "shorter gap" between upstream and downstream in the sense of mutual need. Increasing awareness of many coffee stakeholders to maintain the preservation of nature. The point of view depends on only one supply chain or even one commodity makes stakeholders realize that there is still a lot of room to develop, all this is still in the takeaways of COVID-19. Topics such as multi-cropping, healthy supply chains, maintaining / increasing coffee consumption became trending in various talks.

This year there are several new programs that have been successfully run, including KAPUCINO (media publications made by the SCOPI Secretariat), the first National Sustainable Coffee Meeting, the first Indonesia Coffee Forum 2020, the first e-learning module, baselining, as well as advanced monitoring & evaluation which is very useful for the implementation of the next NSC program. In SCOPI's main program, NSC has clearly evolved from a coffee curriculum implementor to an enabler and convener. This is seen from the start of the baselining and monitoring & evaluation programs that aim to disseminate education on target, on time and effectively. No less important all this takes place parallel with the efforts to strengthen the SCOPI Secretariat which has made a lot of progress

Many shortcomings can be learned as well as achievements that need to be continued and even be improved. But all of SCOPI efforts requires the trust and in sustainable coffee and needs to be fought by all stakeholders in the coffee sector. Thank you to all Members for their trust, Executive Board Members, Supervisory Board Members, Advisory Board Members, the Central and Local Government, Supporting Partners (Donors), Secretariat Team and other associates, without all that support, SCOPI's achievement will not be like it is today.

Here is to the spirit of SCOPI! Towards sustainable coffee in Indonesia!

Irvan Helmi  
Chairman of SCOPI Executive Board  
for the Period of 2018 - 2021

# I. SCOPI'S ACHIEVEMENTS IN 2020

## SCOPI Secretariat Capacity Building

As part of the prioritized activities by 2020, the Global Coffee Platform has supported SCOPI in various capacity building for the SCOPI Secretariat in several topics, such as organizational development, financial management and program measurement. Though those activities, hopefully the SCOPI Secretariat Team will be strengthened in terms of knowledge, relevant outlooks and teamwork.

## SCOPI's Secretariat Guidebook

In 2020, SCOPI had developed the SCOPI's Secretariat Guidebook for the first time. The guidebook becomes a foundation and reference for the SCOPI Secretariat in planning, implementing and measuring various organizational activities, which includes guidance for managing SCOPI's administrative, financial, operational, program and communication activities.

## Launch of "KAPUCINO" Newsletter

SCOPI has relaunched its e-newsletter titled "*Kabar Seputar Cerita Inspiratif SCOPI*" or commonly abbreviated as "KAPUCINO". KAPUCINO is issued every 2 months, with the aim to provide periodic updates related to activities conducted by SCOPI together with its Master Trainers, members, and partners.

## Establish Partnerships with Government/Institutions

As a platform that encourages multi-party cooperation on sustainable coffee issues in Indonesia, SCOPI continues its efforts in encouraging collaboration and partnership between the public and private sectors at the national and regional levels. In 2020, SCOPI has successfully established partnerships with several Ministries/Institutions, which includes;

- Coordinating Ministry for Economic Affairs of the Republic of Indonesia
- Ministry of Agriculture of the Republic of Indonesia
- Ministry of Cooperatives and Small and Medium Enterprises of the Republic of Indonesia
- Ministry of Internal Affairs of Republic of Indonesia
- Ministry of Trade of the Republic of Indonesia
- Ministry of Environment and Forestry of the Republic of Indonesia
- Ministry of Tourism and Economy Creative of the Republic of Indonesia
- Embassy of The Republic of Indonesia in Germany
- Embassy of The Republic of Indonesia in Singapore
- Embassy of The Republic of Indonesia in Brussels to the European Union, Belgium & Luxembourg
- Provincial / Local Government
- Bank Indonesia
- SMESCO Indonesia

## II. ABOUT SCOPI (PRINCIPLES, VISION, MISSIONS, AND THEORY OF CHANGE)

**Sustainable Coffee Platform of Indonesia (SCOPI) is a non-profit organization incorporated in the form of associations for market participants in the coffee sector and stakeholders concerned about the development of coffee in Indonesia established on March 31, 2015.**

SCOPI has principles in organizing to achieve its vision and mission, namely:

- Inclusive, participatory, democratic
- Neutral, pre-competitive
- Farmers-centered
- Solution-oriented, encouraging synergy, loyalty and commitment
- Multistakeholder-based
- Open forum

SCOPI has a vision to promote and improve Public-Private Partnership (PPP) in coffee commodities to achieve:

- Economic opportunities for farmers
- Food security
- Environmental sustainability

Also, has missions as follow:

- The core driver of SCOPI is development of Public-Private Partnership (PPP) for the actors in the coffee sector across Indonesia
- SCOPI facilitates the sharing of learning and best practices, as well as alignment of all programs leading towards synergy in the coffee sector
- SCOPI promotes collaboration with other national coffee associations

## IMPACT

## Sustainable Coffee Production & Increased Livelihood

**OUTCOMES**  
Learner supply chains  
and price transparency

**OUTCOMES**  
Farmer trained in GAP,  
GMP with up to date  
technology

**OUTPUTS**  
FO strengthened  
and bankable

**ACTIVITIES**  
1 Training on quality  
assessment  
2 Support FO to  
become aggregator

**OUTPUTS**  
Standardized MT with proven  
and updated modules  
District model farm & processing  
in accessible to farmer  
Established monitoring &  
evaluation system

**ACTIVITIES**  
3 Rolling out MT Training  
with up to date NSC  
4 Mentoring  
5 Training MT to become  
agripreneur  
6 Facilitation MTs to be  
Agents of Change  
7 Develop monitoring &  
evaluation system

**OUTCOMES**  
Farmers access  
appropriate agri inputs

**OUTPUTS**  
Feasible/healthy microfinance  
ecosystem for coffee farmer

**ACTIVITIES**  
8 Support financial and  
banking literacy  
9 Develop financial  
ecosystem scheme  
for coffee

**OUTCOMES**  
Farmers access financial  
capital to invest on  
their farm

**ACTIVITIES**  
10 Organized learning  
sessions  
11 Documentation and  
dissemination of  
knowledge on coffee

**OUTCOMES**  
Improved coffee  
productivity

**OUTCOMES**  
Experience of replanting  
program to replace with  
better plant's materials

**OUTPUTS**  
Stronger engagement with  
government and  
other stakeholders

**ACTIVITIES**  
12 Develop effective and  
proactive government &  
stakeholders relations  
13 Develop collaboration with  
other association &  
stakeholders  
14 Support seed logistics  
through MT seeding plots  
15 Training on proper standard

**OUTCOMES**  
Alignment of SCOPI with  
government policy and program

**OUTCOMES**  
Conducive environment  
to coffee sector

**OUTPUTS**  
Improved consumer  
awareness on sustainability

**ACTIVITIES**  
16 Improve consumer  
awareness on sustainable  
product (e.g. Kopi Lestari  
campaign)  
17 Re-organizing SCOPI (logo  
Kopi Lestari)

**Enabler**

**Convener**

**Knowledge Management**

**Advocator**

FO: Farmers Organization  
GAP: Good Agriculture Practice  
GMP: Good Manufacturing Practice  
NSC: National Sustainability Curriculum  
MT: Master Trainer

# III. GOALS UNTIL 2022

**1** Raising agroforestry issues in the practice of Good Agricultural Practice (GAP)

Raising climate related issues to help coffee farmers and other stakeholders affected by climate change in Indonesia

**3** Alignment of SCOPI scope with government policy and programs

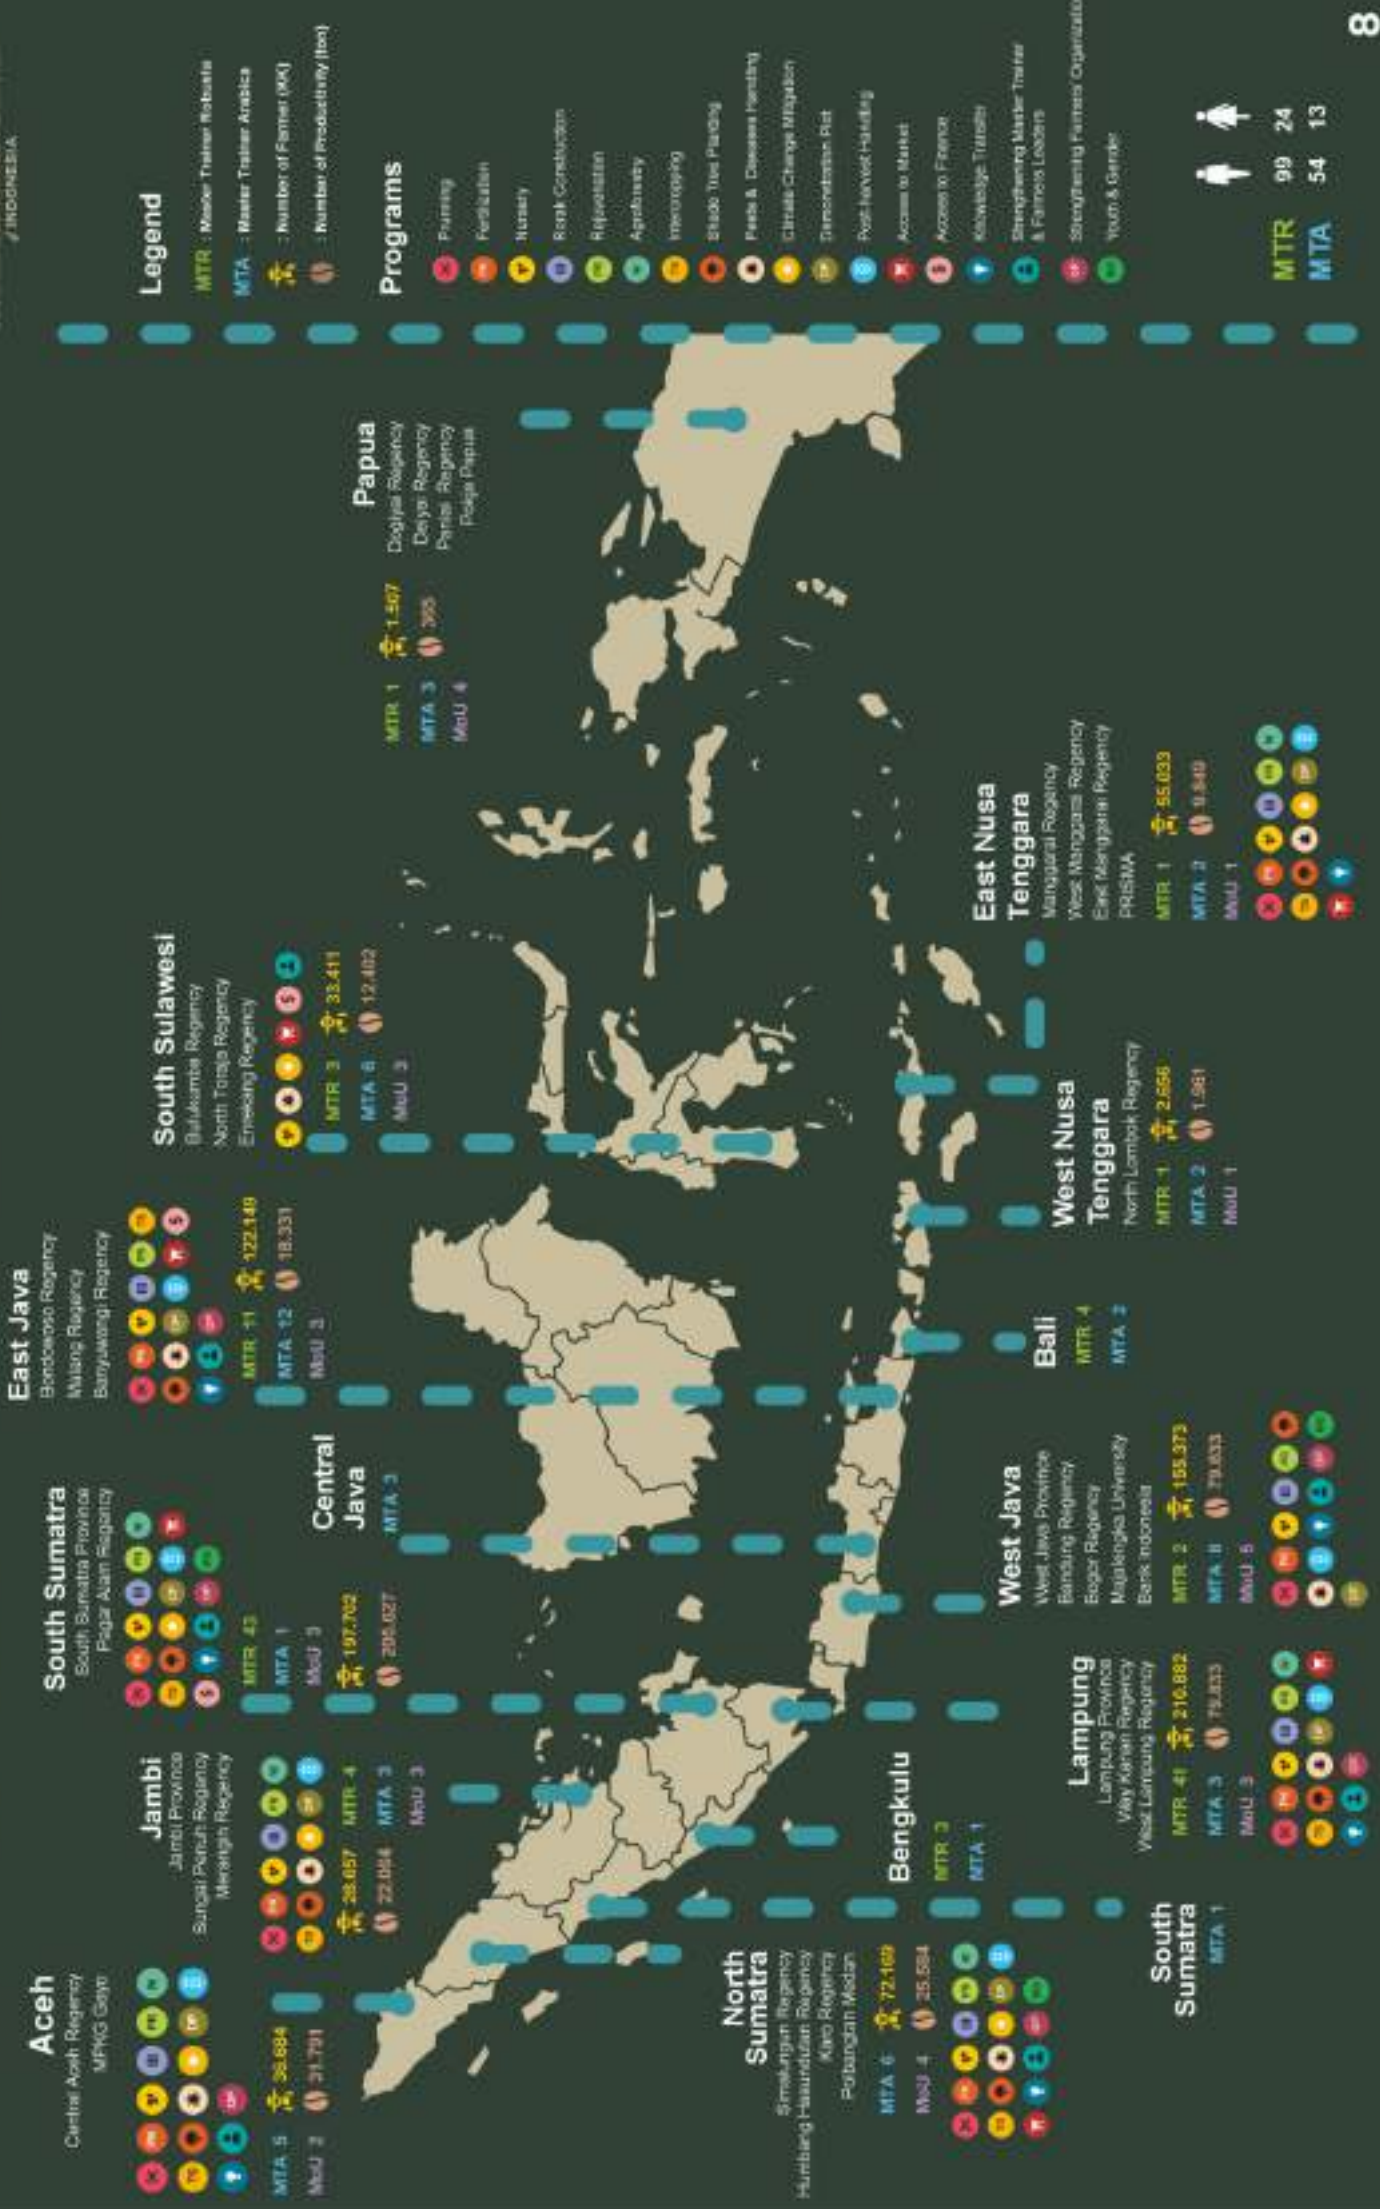

Increase productivity and access to market of Indonesian coffee

# IV. MAP OF SCOPI'S WORKING AREA

# V. SCOPI 2018-2021 BOARD MEMBERS AND SCOPI SECRETARIAT

SCOPI Executive Board

Treasurer of Executive Board

Indradi Soemardjan  
PT Javanero Indonesia Arta  
(2018-Maret 2021)

Chairman of Executive Board

Irvan Helmi  
PT Anomali Coffee

Secretary of Executive Board

Fitriani Ardiansyah  
Yayasan IDH

Ayi Sutedja  
Murbeng Puntang Cooperative

Chandra Panjiwibowo  
Rainforest Alliance  
(2018 - Februari 2021)

Hariyanto Lim  
PT. Asal Jaya

Rudi Syahrudi  
PT. Nestlé Indonesia

Wildan Mustofa  
CV. Frinsa Agrolestari

Hendri Kurniawan  
ABCD School of Coffee

Richard Atmadja  
PT. Mayora Indah Tbk

SCOPI Supervisory Board

Chairman of Supervisory Board

Moenardji Soedargo  
PT Aneka Coffee

Member of Supervisory Board

Yasmin Wirjawan  
PT Sentra Arta Makmur

Bayu Krisnamurthi

Leony Aurora

R. Wisman Djaja

SCOPI Advisory Board

SCOPI Secretariat

Veronica Herlina  
(May 2015 - March 2020)

Executive Director

Paramita Mentari Kesuma  
(March 2020 - Now)  
Previously Deputy Director  
(Dec 2019 - Feb 2020)

Head of General Affairs & Operations

Ginanjar Prasetyo Utomo  
(February 2021 - Now)

General Affairs & Operations Officer

Purnama Graha  
(December 2019 - Now)

Communications Manager

Swiny Adestika  
(March - October 2020)

Program Officer

Iyat Hamiyati  
(January - December 2020)

Program Officer

Natasha Trisyani W  
(December 2020 - July 2021)

Administrative Support

Annassytassya Nurul Hidayati  
(December 2020 - Now)

Intern

David Nicholas Franzti  
(November 2020 - Now)

Intern

Tota Jordan Sitanggang  
(June - August 2021)

## VI. SCOPI MEMBERS

# IX. PROGRAMS AND ACTIVITIES 2020

## A Lobby and Advocacy with Local and Central Government

In planning and implementing its various programs and activities, SCOPI always ensures that there is alignment with the Government's work plan and programs, in order to support the targets of relevant stakeholders in the policy sector. During 2020, various meetings, discussions and hearings have been held with Government partners, both to introduce SCOPI programs and activities, obtain updates on programs and policies from the relevant Government, and follow up on previous partnerships. In addition, several Memorandum of Understanding (MoU) has been signed with several local government representatives. With the outbreak of the COVID-19 pandemic, most of the meetings held with Government partners are held virtually.

At the end of 2020, an activity titled "Lobbying and Advocacy Through Coffee Sustainability Information Availability Activities", which aims to gather information about the development and implementation of the National Sustainability Curriculum (NSC) has been held in 13 locations. The results of this activity can be input for the planning and intervention of government partner activities as policyholders, with the main objective to encourage sustainable coffee production and improve the welfare of farmers. The locations of these activities include the following:

1. Central Aceh Regency, Aceh Province
2. Karo Regency, North Sumatra Province
3. Simalungun Regency, North Sumatra Province
4. Sungai Penuh City, Jambi Province
5. Pagar Alam City, South Sumatra Province
6. Lahat Regency, South Sumatra Province
7. Muara Enim Regency, South Sumatra Province
8. South Ogan Komering Ulu Regency, South Sumatra Province
9. Tanggamus Regency, Lampung Province
10. West Lampung Regency, Lampung Province
11. Bulukumba Regency, South Sulawesi Province
12. Enrekang Regency, South Sulawesi Province
13. North Toraja Regency, South Sulawesi Province

In 2020, SCOPI has successfully signed several Memorandum of Understandings (MoUs) which contain the scope of activities as follow:

- Improvement of Knowledge and Skills in Good Agricultural Practices (GAP) for Coffee Cultivation; and
- Improvement of Knowledge and Skills in Post-harvest Sustainable Coffee

The scope of the Program referred to in this Memorandum of Understanding is as referred to in the training syllabus in the National Training Guide Curriculum and Manual of Sustainable Cultivation Training (Good Agriculture Practices/ GAP) and Post-harvest (Post-harvest) Sustainable Coffee.

There were 6 (six) MoUs which had been signed with several local government, which comprise:

1. 24 September 2020, Government of Enrekang Regency, South Sulawesi Province
2. 22 October 2020, Government of Central Aceh Regency, Aceh Province
3. 22 October 2020, Government of North Toraja Regency, South Sulawesi District
4. 2 November 2020, Government of Lahat Regency, South Sumatra Province
5. 16 November 2020, Government of Bulukumba Regency, South Sulawesi Province
6. 25 November 2020, Government of Sungai Penuh City, Jambi Province

Through the signing of the MoUs which had been conducted in 2020 and the other existing MoUs, SCOPI hopes to be able to work with local governments in planning programs that benefit coffee farmers in Indonesia and can continue to advance and promote Sustainable Coffee in Indonesia. The support from the Central and Local Governments is very important for SCOPI to continue to benefit the coffee sector in Indonesia.

# B Coffee Discussion (Diskusi Kopi/DISKO) and Webinar

Coffee Discussion Activities (DISKO) has been conducted by SCOPI since 2019 to facilitate information exchange and collect aspirations, learning and success stories from various stakeholders related to current coffee-related topics both nationally and internationally. Since then, DISKO has been one of SCOPI's highlighted activities to promote "sustainable coffee" to the wider community and to strengthen the SCOPI network with various stakeholders in the coffee sector.

#ISC2020  
#SustainableCoffee

Indonesia Sustainable Coffee Forum 2020 is the first forum to raise the issue of sustainable coffee held by SCOPI in Indonesia. This series of forums has been held on June 23-26, 2020, virtually and supported by Rainforest Alliance, Global Coffee Platform, Ford Foundation, GIZ, and IDH Indonesia. By bringing stakeholders together, SCOPI aims to gain input and increase awareness among stakeholders related to the development of a better agricultural business model for replanting activities in order to increase coffee productivity in Indonesia, while encouraging collaboration among stakeholders in dealing with the impact of the COVID-19 pandemic on the coffee sector in Indonesia. Through this activity, SCOPI also hopes to be able to increase public-private partnership in achieving sustainable coffee production by aligning the SCOPI program with the Government of Indonesia program. In addition, SCOPI also hopes to be able to identify potential role sharing and collaboration between stakeholders in the Indonesian coffee sector. This series of forum activities was attended by approximately 443 participants during 4 (four) days of activities.

# D National Sustainable Coffee Stakeholders Meeting 2020

Coinciding with National Farmer's Day, September 24, 2020, SCOPi held a virtual meeting at the National Sustainable Coffee Stakeholders (NSCS) Meeting 2020. The event, which was attended by 135 participants from members, donors, government partners and Master Trainers (MT) partners, wanted to emphasize the strengthening of Human Resources (HR) in coffee farming with MT, identify challenges upstream and downstream of coffee and formulate joint actions to encourage sustainable coffee ecosystems, especially in the new era of normalcy.

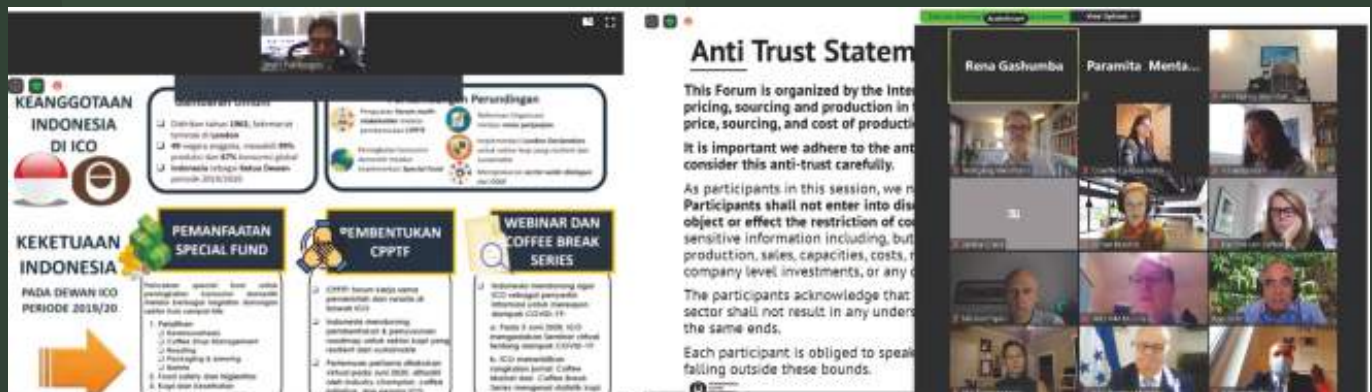

# Youth Barista Training Lampung

SCOPI together with Ford Foundation and Rainforest Alliance held a training of young entrepreneurs in the field of coffee on 20 - 23 October 2020 for the development of Human Resources (HR) which is expected to encourage the strengthening of the coffee sector economy, especially the home industry in Lampung Province which is the largest Robusta coffee producing province in Indonesia. 30 participants aged 17 - 35 years who are involved in the coffee business and get prior assistance by SCOPI Master Trainers (MT) and Local Government, were selected to participate in the 2-day training, from October 20, 2020.

# F International Coffee Organization Coffee Public-Private Task Force

In 2020, SCOPI pursued its involvement in the International Coffee Organization (ICO) Working Group and Task Force, which is based in London. The Directorate of APEC and International Organization Negotiation, Ministry of Trade of the Republic of Indonesia have asked SCOPI, the Indonesia Coffee and Cocoa Research Institute (ICCRI) and Gabungan Eksportir Kopi Indonesia/GAEKI (who is also a SCOPI member) to become a part of a joint task force to give technical inputs to the Ministry of Trade regarding Indonesia's work plan in the "Coffee Public-Private Task Force."

# G Pre-monitoring Activity

After the trainings to farmers had been conducted with the Master Trainers, SCOPI needs to develop and implement the right monitoring and evaluation system to be able to see the impact of the training. The series of pilot project processes for monitoring and evaluation that will be conducted include planning, collection, data analysis, review, and reporting. Pilot project monitoring and evaluation is very important to contribute to decision making and learning for SCOPI, its members and partners. The right monitoring and evaluation system will provide more accurate information so that it can see how well SCOPI is running the program to achieve its goals in supporting the development and sustainability of coffee in Indonesia.

# H Development of E-Learning Module

In August 2020, SCOPI has launched an e-learning module with the topic "Polyculture Planting Methods on Coffee Plants" which was aired through SCOPI's YouTube channel. This topic was chosen in response to the impact of the coffee sector, especially the decrease in prices on Specialty coffee. Through this module, SCOPI hopes that coffee farmers can grow other crops combined with their coffee crops to earn income other than coffee crops.

## Training of Trainers (ToT) MT Arabica in Takengon, Aceh Province

SCOPI and Fairtrade once again held a ToT activity in Takengon, Central Aceh Regency on January 6-9, 2020, with the theme "Training on Good and Sustainable Coffee Cultivation (GAP) and Post-harvest Handlers", which was attended by 51 participants. ToT aims to increase the capacity of farmers in conducting good and sustainable coffee cultivation practices as well as post-harvest handling. In addition, with the knowledge gained, the hope is to increase the productivity and quality of coffee in Takengon. The training also involved four Arabica Master Trainers and a Grand Master Trainer.

## Training of Good Agricultural Practices (GAP) for Coffee Farmers in Bogor Regency, West Java

Good Agricultural Practices (GAP) training to coffee farmers has been conducted in Cibulao Village, Bogor Regency on 5 - 6 November 2020, in collaboration with Rainforest Alliance, HSBC, Horticulture Crop Plant, and Bogor Regency Plantation Office. This activity is a training conducted to 33 farmers from 4 different locations around it, namely: Forest Farmer Group (KTH) Cibulao, KTH Cikoneng, KTH Cisuren, KTH Rawamendung, Gapoktan Megamendung and Pangalengan. By planting coffee plants as shade trees, it is expected that local communities can obtain economic and social benefits from sustainable coffee cultivation practices, support efforts to preserve forests and protected animals in the surrounding area and protect the Ciliwung Watershed.

## Secretariat Mid-Year Meeting in West Java Province 2020

SCOPI held a Mid-Year Meeting in Lembang. At this meeting, discussions have been held related to the coordination of the SCOPI Secretariat, the latest updates on communication and media strategy, operation & program. This meeting resulted in several things, such as the division of tasks and coordination related to the program from SCOPI, brainstorming ideas for SCOPI communication activities, which include, among others, SCOPI social media content, SCOPI website themes, and SCOPI e-newsletters.

# L Secretariat Year-End Meeting 2020, Coordination with Supporting Partners and Field Visit in Bali Province

As a platform that encourages multi-party cooperation on sustainable coffee issues in Indonesia, SCOPI continues its efforts in encouraging collaboration and partnership between the public and private sectors at the national and regional levels. Ending 2020, SCOPI held a Year-End Meeting in Bali, visiting two of its members in Bali, namely Rikolto and Rainforest Alliance, SCOPI has also held an audience for the first time with the Bali Provincial Government on December 16, 2020, at the Secretariat Office of Bali Province, Denpasar. The SCOPI Team was received by Mrs. Ni Luh Made Wiratmi, Assistant Governor of Bali Province for Economic and Development Administration; Mr. I Wayan Mardiana, Head of Bali Provincial Cooperative & SMEs Office; Mr. Lanang Aryawan, Head of Plantation, Department of Agriculture and Food Security of Bali Province; Mr. I Gede Wayan Suamba, Head of Industry, Department of Industry and Trade of Bali Province; representatives of the local government official ranks. During the visit to Bali, SCOPI and Master Trainer had the opportunity to present the SCOPI program so far, the challenges faced by the coffee sector in Indonesia, and the aspirations of coffee farmers in Indonesia, as well as in Bali Province, so it is expected that SCOPI and the Bali Provincial Government can explore potential collaboration to support and advance the coffee sector in Bali Province.

# X. SECRETARIAT CAPACITY BUILDING

## A English Language Course

The English Course for SCOPI Secretariat Team is one of the programs supported by GCP with the aim of capacity building. The ability to communicate in English can help the entire SCOPI Team to be able to communicate verbally or verbally with SCOPI members, partners, and donors from abroad. English courses are also provided to increase the capacity of the SCOPI Team in report generation and presentation in English.

## B *Online Course: Strategy for Nonprofits, Financial Management for Nonprofits*

With the support of GCP, SCOPI Secretariat Team has been taking online course from University of California Irvine in 2020 for 2 months. Through this program, SCOPI Team obtained deeper learning and knowledge related to 2 materials, namely; Strategy for nonprofits and Financial Management for nonprofits. This capacity building is given to the SCOPI Team in the hope that the SCOPI Team can provide a new perspective for SCOPI in order to remain relevant organization for stakeholders.

## C Systems Thinking & Systems Dynamics Workshop

This workshop aims to introduce the implementation of System Thinking & Systems Dynamics in problem solving presented by the expert - Dr. Teten W. Avianto. This workshop was held with the concept of open discussion, where team members are given the opportunity to express their opinions, to exchange ideas and get new perspectives. Thus, SCOPI Team not only acquires new knowledge, but also it is expected that through this activity team members can strengthen the relationship in the team, improve coordination, and cooperation between teams.

## D Field Visit to West Java Province

During the Field Visit activity, SCOPI Secretariat Team members also had a sharing session where the new members of the SCOPI Secretariat Team received explanations regarding the NSC program, which comprises training of Master Trainers, trainers, and coffee farmers program. This sharing session allows the new member of SCOPI Secretariat Team to learn regarding coffee cultivation along the training process with real-life case. The demoplots that were visited by SCOPI Secretariat Team is owned by Kelompok Tani Hutan (KTH) Cibulao – a group of passionate local coffee farmers who aims to harvest only the best quality of coffee beans by following Good Agricultural Practices (GAP).

# XI. EXHIBITIONS AND PROMOTION

1

**Date: 10 - 16 November 2020**

**Supported by: Ministry of Trade of the Republic of Indonesia, Rainforest Alliance, GIZ, KEHATI Foundation, Rikolto, and WWF**

The Trade Expo Indonesia (TEI) Virtual Exhibition 2020 is an annual event of the Ministry of Trade of the Republic of Indonesia, to promote Indonesian coffee to the global market. In this event, SCOPI facilitated the coffee farmers who have been assisted by the Master Trainers and SCOPI Members (namely KEHATI Foundation, Rikolto, and WWF in Lampung) to promote their coffee green beans products during the event. SCOPI promoted 57 coffee green beans products from 7 provinces, which include Aceh Province (10 products), South Sumatera Province (8 products), Lampung Province (4 products), Jambi Province (5 products), East Java Province (11 products), South Sulawesi Province (11 products), and East Nusa Tenggara (8 products). Throughout the event, there were a total of 79 visitors who visited SCOPI's booth.

2

**Date: 11 - 13 November 2020**

**Supported by: Trade Attaché in Singapore, Embassy of the Republic Indonesia, Tea Pasar and Café Asia**

An event that was held by the Tea Pasar and Café Asia in Singapore, to promote Indonesian coffee to the global market. This year, SCOPI was involved in two parts of the expo, in June and November 2020. Virtual assistance during the whole event were provided by SCOPI Secretariat, where SCOPI also facilitated in coordinating with the coffee farmers and sending the coffee green bean samples to Singapore.

## Activity Outputs:

1. Improve brand awareness amongst the public towards SCOPI
2. Created incentives created for SCOPI's partners: Government, Master Trainers and coffee farmers
3. Strengthen synergy with the respective Ministries
4. Implementation of local coffee brands and coffee assisted by SCOPI Master Trainers

## XII. COMMUNICATION AND PUBLICATION
